

NER300 RES first call awards as released by European Commission 18 Dec 2012

There is good consistency between the order of projects by funding rate ('Fund rate' in the table below) and the order by CPUP, which is the basis, as per Procedures Manual [Appendix 11.2](#), for determining the selection order of projects in the [12 Jul 2012 Staff Working Document](#). Mismatches in the ordering occur for the projects identified with **this marking**. They occur because the funding rate does not take account of national government subsidy flowing to the project, such as feed-in tariff payments, which, if it is present, pushes CPUP above the 'funding rate'.

Subcategory	12 Jul 2012 selection order	12 Jul 2012 CANDIDATE LIST				12 Jul 2012 RESERVE LIST			
		Fund rate / (€/MWh)	Award / M €	Country	Name	Fund rate / (€/MWh)	Award / M €	Country	Name
BIO a	1	12.1561	31.40483	SE	Pyrogrot				
BIO c	2	20.3616	58.79717	SE	GoBiGas Phase 2			SE	E.ON-Bio2G
BIO g	3	26.79768	28.43015	IT	BEST	29.40478	30.87502	PL	CEG Plant Goswinowice

CSP a	21			IT	Archetype 30				
OCN e	22			FR	ETM Martinique				
TOTALS		680.3031				536.642001			

The table takes the layout of the table on p7 of the [12 Jul 2012 SWD](#) and updates it by adding the award status, funding requests and CPUP of the projects announced in the [Award Decision](#).

GRAND TOTAL innovative renewables: 1217 82%
 (ULCOS non-award) (264) (18%)
 Total allocated in draft [Award Decision](#): 1217 M €

Key

Crossed-out: project has not been confirmed by the Member State and is therefore withdrawn.

Example:

~~PV-b~~

20

GR

~~PV-Megalopolis~~

{ Curly brackets indicate a deselection pass (in other words an iteration of the procedure outlined in [Appendix A11.2](#) of the Procedures manual for the Candidate Group). In each deselection pass, projects with better (i.e. lower) CPUP are ranked higher. Also, within each category (WIN, BIO etc), CPUP increases for every subcategory having a higher selection order.
